My father-in-law just passed away about 2 weeks ago he had no money & no life insurance we were told we had to come up with the money to bury him before it would happen. We begged, borrowed and almost stole to come up with 2/3 of it they finally they said they could do it if we could come up with the rest in 30 days I ask the guy if he could come up with that sum of money in 30 days, he wouldn't answer. My husband ended up being taken by ambulance from the cemetery to the hospital. It was all the stress he had been in over the past month to two months seeing his Dad go through so much pain as he did & having to make promises to him he didn't know he could keep. The last three weeks I could see it was really take a toll on his health. Now we owe people that we had to borrow from & a big bill at the funeral home. We are both on disability so we don't make much is there help out there for us. We will go to our graves owing on his funeral. We need some kind of help!!!
